

# FALDALE ALLUMINIO

## Descrizione | Description

Il faldale raccorda la canna fumaria al tetto, prevenendo infiltrazioni d'acqua. È adatto a tetti piani o inclinati fino a 60° e va abbinato alla scossalina (Art. SCO) per una corretta impermeabilizzazione.

The flashing connects the flue to the roof, preventing water infiltration. It is suitable for flat roofs or roofs with slopes up to 60° and should be paired with the flashing (Art. SCO) for proper sealing.

### Art. FAL - piano 0° - 5°

flat roof

### Art. FAL - inclinato 5° - 30°

pitched roof
